

**SIMACO®**

**COLOR IS OUR PASSION!**

The SIMACO logo is displayed in a bold, white, sans-serif font against a dark background. The letters are closely spaced, and a registered trademark symbol (®) is located at the top right of the 'O'.

## YOUR PROFESSIONAL PARTNER FOR INKJET PRINTERS AND PRINTING INKS

As an expert partner in the field of industrial inkjet printers, we work closely with printer manufacturers and supply high-quality complete systems, inks, printing inks, thinners and cleaners to over 70 countries around the world - all made in Germany!

Based on our 40 years of experience, we set international standards with our own basic research in our laboratories and production facilities.

As a premium supplier, SIMACO delivers durable, long-lasting printing results - reliably and sustainably.

A glass flask is shown with a vibrant, multi-colored liquid (red, orange, yellow, and blue) splashing out of its neck. The liquid forms a dynamic, upward-moving column with several smaller droplets trailing off to the right. The background is a solid dark blue. Three horizontal blue bars are overlaid on the image, each containing a white text label. The top bar is labeled 'SIGNING', the middle bar 'CODING', and the bottom bar 'MARKING'. The 'SIGNING' bar is positioned over the upper part of the liquid splash, 'CODING' is over the middle, and 'MARKING' is over the lower part. The 'MARKING' bar is also partially overlaid by the 'SIMACO' logo.

SIGNING

We stand for the development of innovative printing inks, inks and highly specialized coatings. As a company belonging to the HEUFT Group, we serve a wide variety of markets - from the food, beverage and pharmaceutical industries to the logistics sector and the construction, automotive and metal industries. Comprehensive controls from the raw material to the end product ensure that all SIMACOLOR products meet our high quality standards.
